

He is a dirty scoundrel in Ohio, who publishes a paper called the "Tome," at Portsmouth, who is endeavoring to obtrude himself on our notice by vulgarly abusing us at the safe distance of several hundred miles. We have no words to say on such cattle, and therefore let him pass.

#### Joint Amendment Resolved.

Hon. J. W. L. DODD, M. C. chose from the Circuit District of Tennessee, has addressed a letter to the members of the Tennessee Legislature urging them not to ratify the Constitutional Amendment proposed by Congress. He says:

"What is the ultimate object of this amendment? Is it to give to force upon an unwilling negro suffrage; and so, it is the writer as to accomplish this in either two ways: First, by inducing us to adopt it ourselves, rather than suffer disfranchisement of representation. Failing in this, which is not probable they will fall back on the well-known ground to Congress to enforce the provisions of this amendment; and how easy will it be to say it is necessary to grant their suffrage, in order to protect them in their newly required citizenship?"

He argues to show that the amendment is but a party trick of the Radicals to let in the Tennessee members at the close of the session, and declares that "this Congress will not, yes, *do* not, adjourn to go before the patriotic Northern people without first recognizing your unconditional right to representation."

The entire letter is a fine argument against the adoption of the amendment, and has the ring of the true metal. Mr. Tiefwisch was known as a "Union man" during the war, and is able to take the "test-onth."

#### General Orders.

Gen. Wool has announced in orders, the names of the United States Commissioners recently appointed by Judge Hill. These officers are the agents for the enforcement of the Civil Rights Bill. The order directs:

"The officers of the Bureau in this State will immediately put themselves in communication with the Commissioners in their respective districts; establish harmonious relations with them, bring to their notice all infractions of the Civil Rights Bill, and aid in bringing the violators to justice."

It is in which, under the State laws, injuries is done to the freed people, the Commissioners must be appealed to for the proper legal redress; and the officers of the Bureau will aid the freed people in their advice and suggestions in settling themselves of the protection afforded by the Civil Rights Bill."

The recent order of Gen. Grant, published a day or two since, ordering military interference in the Southern States with civil offenses, is also announced in this department.

Gen. Wood has likewise issued the following Circular, under date of the 16th:

"Case having been reported to this office, of persons collecting discharge and other papers from former United States Soldiers, and especially from those who were of the colored troops, for the purpose of collecting back pay, bounty, etc., giving and receiving therfor and generally acting in a manner calculated, naturally, to give fuel to the officers of this office are authorized to prosecute all such cases of colored soldiers free of charge, and they are hereby warned not to entrap their papers or claims to remuneration and irresponsible persons."

**COUNTERTIME ARRESTED.** — An Italian, whose name we did not learn, was arrested yesterday on the charge of vending counterfeit United States currency in 50 cent bills. He is reported to have been very anxious in making exchange in this state which will hang him if the offense is confirmed. If he recollects the law of the United States right — Mississippi, 19th.
